PROFESSIONAL SUMMARY

UI/UX and WordPress Designer with 3+ years designing high-performing, conversion-focused digital experiences for a WordPress product company and client websites. I design end-to-end in Figma and take work through to polished, responsive, live pages — and, unusually for a designer, I ship my own code, having built and released a Gutenberg block through a Figma-to-GitHub workflow. Experienced in design systems at scale (400+ UI patterns, 50+ templates), SEO and performance-conscious design, and cross-functional collaboration in a fully remote, distributed team.

CORE SKILLS

Design: UI/UX Design, Design Systems, Wireframing, Prototyping, Conversion-Focused & Landing Page Design, Responsive Design, User Flows, Website Optimization

Tools: Figma, Adobe Photoshop, Adobe Illustrator, Adobe XD, Spectra, Astra, Elementor, Shopify

WordPress & Front-End: WordPress, Gutenberg Block Editor, HTML, CSS, JavaScript, GSAP, Git / GitHub, Custom Code Implementation

SEO & Performance: On-Page SEO, Technical SEO Best Practices, Organic Traffic Growth, Page Speed & Performance Optimization (Perfmatters, CSS audits)

Workflow: AI-assisted design-to-development (Claude, ChatGPT), QA testing, cross-functional remote collaboration

EXPERIENCE

Design Specialist Nov 2024 – Present
Brainstorm Force (BSF) *Pune, India (Remote)*

- **Contributed design work across BSF's flagship WordPress products** — Astra, Spectra, SureCart, Starter Templates, and ZipWP — collaborating with product and development teams on shared design systems and releases.
- **Led the complete redesign and rebuild of the Spectra website**, preserving SEO rankings while improving conversion-focused layouts across all devices.
- **Designed and contributed 400+ scalable UI patterns and 50+ website templates**, improving design consistency and measurably accelerating deployment speed across the product.
- **Designed and shipped a Marquee block for Spectra end-to-end** — from Figma to production — using an AI-assisted Figma-to-GitHub workflow (branching, commits, pull requests), bridging design and development.
- **Delivered BFCM campaign web experiences across 9 product websites** and drove performance gains through CSS audits, plugin cleanup, and Perfmatters implementation.
- **Contributed UX recommendations and feature proposals** that directly influenced product roadmap decisions.
- **Performed structured QA across Spectra product releases**, identifying critical issues and raising overall product quality.

Senior Web Developer (UI / Web Focus) May 2024 – Sep 2024
Cubic Designz *Chennai, India (Remote)*

- **Designed and implemented 10+ interactive GSAP animations**, increasing user engagement by 30%.
- **Delivered custom UI solutions in Figma and front-end code** while maintaining high client satisfaction.
- **Improved SEO, website optimization, and page speed**, contributing to measurable traffic growth.
- **Managed and mentored a team of 5**, improving delivery efficiency through workflow optimization.

Web Designer & Developer May 2023 – Apr 2024
FyerX Digital Marketing Agency *Bengaluru, India (Hybrid)*

- **Designed and developed 30+ responsive websites across industries**, improving UX and client satisfaction.
- **Improved SEO rankings for a 40% increase in organic traffic in 6 months** and reduced page load times by 30%.
- **Designed and launched 50+ websites** using WordPress, Shopify, and modern UI practices.
